CPU-0550 Comparison

CPU-0550 All-In-One Control

Introducing the simplest, most intuitive control available to the hydronic industry, the CPU-0550. The unique design means minutes to learn, minutes to setup. This control covers a wide variety of applications from a single unit, reducing the number of different controls on your shelf.

The CPU-0550 stand alone outdoor reset control accommodates staging, mixing, differential setpoint and pump sequencer applications in a condensed package with extensive flexibility.

Comparisons

132	Pump Sequencer Stand-by / 2-Stage **CPU-0550**		262	Boiler Control - Two Stage Boiler & DHW **CPU-0550**
150	One Stage Setpoint Control **CPU-0550/ THM-0100**		360	Mixing Control - Floating Action **CPU-0550**
152	Two Stage Setpoint Control **CPU-0550/ THM-0100**		361	Mixing Control - Variable Speed **CPU-0550**
153	Mixing Setpoint Control with Floating Action **CPU-0550**		356	Mixing Control - Variable Speed **CPU-0550**
155	Difference Setpoint Control **CPU-0550**		400	House Control - Boiler, DHW & Setpoint, Four Zone **CPU-0550 + ZON-0500**
156	Difference Setpoint Control **CPU-0550**		420	Boiler Reset Module - Boiler, DHW & Setpoint **CPU-0550**
157	Difference Setpoint Control - Variable Speed **CPU-0550**		421	Mixing Reset Module **CPU-0550**
256	Boiler Control - One Stage Boiler **CPU-0550/ ORC-0100**		422	Reset Module - Mixing, Boiler, DHW & Setpoint **CPU-0550**
257	DHW Control - Two Stage **CPU-0550**		423	Reset Module - Two Boiler, DHW & Setpoint **CPU-0550**
260	Boiler Control - One Stage Boiler & DHW **CPU-0550**		440	Mixing Expansion - Variable Speed / Floating Action **CPU-0550**
261	Boiler Control - Two Stage Boiler & Setpoint **CPU-0550**		444	Expansion Module - Variable Speed/ Floating Action/ Modulating **CPU-0550**
